CHAMI MALALASEKARA

I am a highly motivated undergraduate student pursuing a degree in Information Technology
I am seeking opportunities to apply my programming skills and contribute to
innovative projects.
With a solid foundation in multiple programming languages and real-world
experience gained through internships, I am eager to enhance my knowledge
and make a positive impact
on the software development industry.

Technical Skills

- ASP.net (C#) /ASP.net Core
- Vs code/Vs Studio
- MERN Stack
- MS Sql/Oracle /MySql/Mongo
- Front End Coding(HTML, CSS, React Js, Javascript, AJAX, JQuery)
- bootstrap
- Git hub
- Wireframe Creation
- UI/UXCreation (Figma,Moqups)
- Web Design

Soft Skills

- Creativity
- Collaboration
- Adaptability
- Time Management

Experience

2022 November 28 - 2023 May 28 (6 months)

Nekfa Australia (Pvt) Ltd. l W R, 4th Floor, No 131, D A W A D

SOFTWARE ENGINEER INTERN

- During my internship at , I had the opportunity to work on two significant projects. I was responsible for constructing the backend systems for projects using the C# programming language with ASP.NET framework.
- Improve database performance by optimizing SQL queries, boost query response time
- Cut merged conflicts by using Git for version control and collaboration
- Used Figma for UI designs and improved knowledge about UI designing and wireframe designing
- Used developer manual testing method for testing and provide error free code
- Improve project management skills and teamwork skills

2023 - Current

Nekfa Australia (Pvt) Ltd.

ASSOCIATE SOFTWARE ENGINEER

My role as an Associate Software Engineer in ASP.NET was defined by a combination of technical prowess, effective collaboration, meticulous testing, continuous learning, comprehensive documentation, stringent quality assurance, and client-focused solutions. Through these efforts, I contributed significantly to the success of our web applications and the satisfaction of our clients and users alike.

2023

SLIIT -Sri lanka Institute Of Information Technology

Research

A **Study of a Job Portal Impact on Female Employment Rates**

Our research addresses the persistent challenge of gender inequality in the workforce. Despite progress, women globally struggle to find secure employment, often ending up in low-quality jobs. To combat this, our study proposes a tailored web application. This platform streamlines the job search for women, providing access to high-quality employment opportunities. Additionally, it offers free learning resources to enhance employability skills. By focusing on women-centric job opportunities, our research aims to make substantial strides toward gender equality in the workplace.

Education

2021 - current

Undergraduate at SLIT ,specialization in information technology (3rd year 1st semester)

2005- 2019

**ST. JOHNS GIRLS SCHOOL
Panadura**

GCE Advance level 2020:
Combined Maths - Simple Pass
Physics - Simple Pass
Chemistry -Simple Pass

Successfully completed GCE ordinary Level in 2016 8 Distinction with one very good pass

2021

**EBAY SELLER COLLEGE
Panadura
Marketing and Online selling**

Language

English

Sinhala

Tamil

Experience

2022
(Nekfa Australia (Pvt) Ltd.)
KANDY WATER MANAGEMENT SYSTEM
ASP.net , JavaScript, MySQL

2023
(Nekfa Australia (Pvt) Ltd.)
HUMAN RESOURCE MANAGEMENT PROJECT
ASP.net , JavaScript, MySQL

2022
(SLIIT)
INSTITUTE MANAGEMENT SYSTEM
ASP.net , JavaScript, MsSQL

2023
(SLIIT)
FOOD REVIEW APP
React, Spring boot, Mongo DB

2023
(SLIIT)
RAIL WAY RESERVATION SYSTEM
Java

2021
(SLIIT)
ONLINE APP STORE
